Company Overview

Established in 1967, The K-Line Group of Companies takes responsibility for every phase of a power project and is comprised of eight industry-specific divisions that address the engineering, design, procurement, construction, commissioning and maintenance of high voltage power delivery systems. With an extensive fleet of utility trucks and equipment, K-Line has in-house full service industrial garages in Ontario, Saskatchewan and Alberta. K-Line works with utilities, industrial and commercial customers to deliver one-source power solutions. We are proud to be registered to the ISO 9001 Quality Management Standard and OHSAS 18001 Health and Safety Management Standard.

We thank all applicants for their interest in this opportunity. Only those candidates who are selected for an interview will be contacted.
