Responsibilities

- Maintain, update and complete reports, work orders, work procedures, specifications, records and documentation related to the position as necessary
- Perform switching, grounding and tagging operations
- Perform emergency switching to restore Toronto Hydro distribution system and customer loads
- Troubleshoot, diagnose, make temporary and permanent repairs, or replace distribution equipment as necessary in order to afford Toronto Hydro's customers maximum continuity of service
- Operate, inspect and maintain equipment associated with the overhead and underground distribution system
- Provide technical information to Toronto Hydro's customers and assist with repairs to Toronto Hydro's customers' equipment
- Report hazardous conditions to the System Operators
- Develop, maintain, update and complete reports, work orders, work procedures, records and documentation related to the position

Experience & Education

- Red Seal Powerline Technician Interprovincial Certificate is required
- Minimum 5 years' experience as a Red Seal Powerline Technician
- Class DZ license is required
- Experience with switching, overhead, underground and station distribution systems is required

Skills

- Ability to lead, mentor and provide technical guidance to a work crew
- Knowledge of OHSA, the EUSA Rule Book, and the Utility Work Protection Code
- Strong commitment to workplace safety
- Exceptional problem solving skills and a collaborative approach in determining course of action
- Strong communication, customer service and leadership skills are essential
- Basic computer skills are required

Company Overview

The K-Line Group of Companies takes responsibility for every phase of a power project, from initial financing and consulting, through to design, construction and on-going maintenance. K-Line is comprised of eight industry-specific divisions that address the engineering, design, procurement, construction, commissioning and maintenance of high voltage power delivery systems. K-Line works with utilities, industrial and commercial customers to deliver one-source power solutions. Established in 1967, K-Line is registered to the ISO 9001 Quality Management Standard and OHSAS 18001 Health and Safety Management Standard. We are proud to be named Canada's Safest Employer 2015 and one of Deloitte's Best Managed Companies.

The K-Line Group is an equal opportunity employer. Upon request, accommodation will be provided for persons with disabilities through all stages of the recruitment and selection process.
