

CAREER OPPORTUNITY WITH AN INDUSTRY LEADER

At K-Line, our core values of Safety, Quality, Integrity, Operational Excellence and Customer Satisfaction are the foundation of everything we do. As a premiere high voltage electrical contractor, our mission is to provide exceptional value to our utility and related partners through an unwavering commitment to these K-Line values. Proudly awarded Gold Standard as one of Canada's Best Managed Companies, K-Line continues its quest to be the premiere Canadian owned utilities solutions company. We currently have an opportunity available to be based out of **Stouffville, Ontario** for the position of:

POWER STATION TECHNICIAN (IBEW Local Union 353 Position)

Overview

Working with our Substation and Projects Construction Division, this role will take part in the construction of high voltage substations and associated electrical systems. The successful candidate will be a Journeyman Powerline Technician or Journeyman Electrician who through experience and training and is in receipt of an IHSA approved certificate, or equivalent, is a specialist in all facets of the construction and maintenance of substations.

Responsibilities

- Install, inspect, maintain, repair, and approve for service all substation equipment
- Installation of ground grids, underground MV cable systems, substation equipment, steel structures, overhead bus systems, pole installations, overhead lines, etc.
- Report hazardous conditions to the System Operators
- Maintain, update and complete reports, work orders, work procedures, engineering drawings, specifications, records and documentation related to the position
- Maintain personal and group safety at all times
- Participate in the construction, erection, assembly and maintenance of all areas of substation construction
- Willingness to travel and work out of town to meet project requirements

Experience & Education

- Valid Ontario DZ driver's license
- Interprovincial Journeyman Power Lineman or Electrician Red Seal Certificate is required

- Experience working in high voltage utility substations (up to 230kV)
- Experience with substations, overhead and underground distribution systems operations and construction
- CET Designation is an asset

Skills

- Knowledge of OHSA, the EUSA Rule Book, and the Utility Work Protection Code
- Strong commitment to workplace safety
- Exceptional problem solving skills and a collaborative approach in determining course of action
- Strong communication, customer service and leadership skills are essential
- Basic computer skills are required
