

Quality Policy- Accessible Format

K-Line, an **ISO 9001** registered company, is committed to be the premier, Canadian-owned, utility solutions partner for design, engineering, commissioning, construction and maintenance of high voltage transmission, distribution and utility systems.

We will achieve this by delivering on our corporate values of quality, safety, integrity, operational excellence and customer satisfaction.

K-Line provides value-added services to our customers by bringing skilled and trained resources, assisting in managing risks and providing expertise in our areas of specialization.

K-Line's executive leadership is committed to maintaining an effective ISO 9001 Quality Management System. A system that improves our ability to satisfy, and where possible, exceed our customers' needs and expectations. K-Line's system will be fully in compliance with all applicable requirements, including those mandated by legislation and contracts.

Objectives to facilitate continual improvement will be set by top management at our annual Management Review.

Scope: K-Line Maintenance & Construction Limited, K-Tek Electro-Services Limited., K-Line International (Canada) Ltd., K-Line Equipment Leasing (Toronto) Ltd.
